Subject: Approval of Updated Notice of Intention to Commence Small Mining Operations, Ambro and Son LLP, Cedarstrom Calcite Mine, S/049/0012, Utah County, Utah

Dear Mr. Ennes:

On March 17, 2014, the Division of Oil, Gas and Mining received your notice that reclamation of the Cedarstrom calcite mine commenced March 7, 2014. The Division also received the updated Notice of Intention (NOI) along with a map and photographs. As a result of the inception of reclamation activities, no surety escalation will be required.

The Division was on site on March 24, 2014 to witness ongoing reclamation activities. As was discussed at the site, any data on reclamation costs that you would be willing to provide to the Division would be very valuable in helping us to more accurately formulate average costs per acre for reclamation.

The Division approves the updated NOI. Please find enclosed a copy of the approved pages. Thank you for completing these permitting actions in such a timely manner. Please continue to monitor the vegetation success of the site. If vegetation appears to be successful, you may wish to consider nominating this project for one of the Division's Earth Day awards. Feel free to contact us to find out more information about how to be recognized for an Earth Day Award.

Thank you for your help in keeping the Notice and the surety current. Please contact April Abate at 801-538-5214 if you have any questions concerning this letter.

Sincerely,

Paul B. Baker  
Mining Program Manager
